Assembling the Quest Solo Portacot

A Unzip the carry bag and remove the cot.

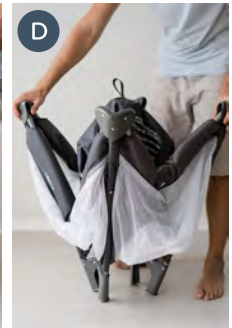

B Stand the cot on its feet and undo the hook & loop straps that hold the mattress around the frame.

C Remove the mattress and set it aside.

D Separate the legs of the cot.

⚠ CAUTION: TAKE CARE, AS FINGER PINCHING CAN OCCUR IN THE CORNER WHEN LOCKING THE RAILS IN PLACE.

E Starting with short rails, pull them up with both hands quickly until they are locked into place.

Then do the same with the longer rails.

NOTE : All the top rails should be locked in place. If they are not, release them and try again. The centre of the cot base must be in a raised position to allow the rails to lock easily. Check for the secure engagement of the rails by pushing down on them.

F Holding one end of the cot clear of the ground, gently press down in the middle of the base until the base lays down flat.

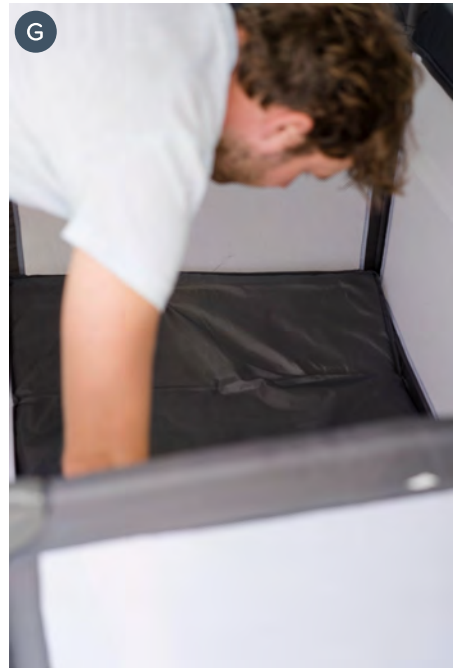

The base should now be locked into position.

G Place the mattress into the cot with its padded side facing up.

Secure the mattress to the cot by passing the loop straps through the slot in the cot base and pressing it onto the hook attachment strips, sewn to the underside of the cot base.

NOTE: Always secure the mattress before using the cot.

⚠ CAUTION: USE ONLY THE MATTRESS SUPPLIED BY THE MANUFACTURER, INCORRECT MATTRESSES CAN CAUSE DEATH. USE ONLY ACCESSORIES AS RECOMMENDED BY THE SUPPLIER. ENSURE THE TOP RAILS AND BASE ARE FULLY LOCKED. DO NOT USE THIS COT IF ANY PART OF THE COT IS BROKEN, TORN OR MISSING

NOTE: If the top rails do not fold - **DO NOT FORCE THEM** - Lift the base higher and re-squeeze the buttons to fully release them.

D Ensure that each rail is fully released and then pull up on the cot base strap, while gathering the legs and the frame together until it's fully folded.

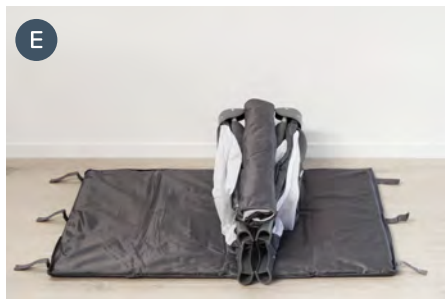

E Place the mattress on the floor, cushion side up. Place the folded portacot on the mattress.

Take the mattress and wrap it around the folded cot with the padded side facing inwards.
